PLANETARY LANDSCAPES

Springer. Paperback. Book Condition: New. Paperback. 288 pages. Dimensions: 10.8in. x 8.5in. x 1.7in. This introduction to planetary geology concentrates on the surface features of the planets and satellites of our Solar System. The author first discusses the primary processes that shape our planet, Earth, and the geomorphology of the objects in the Solar System. The second edition includes new information about Venus and a new chapter on Neptune. The book is beautifully illustrated with high-resolution black-and-white photographs from recent space...
