Bloomsbury Publishing PLC. Paperback. Book Condition: new. BRAND NEW, Starting with Kant, Andrew Ward, This is a new introduction to Kant, guiding the student through the key concepts of his work by examining the overall development of his ideas. Immanuel Kant is arguably the most important and influential thinker in the whole history of philosophy. Covering all the key concepts of his work, "Starting with Kant" provides an accessible introduction to the ideas of this hugely significant thinker. Thematically structured, the book leads the reader through a thorough overview of the development of Kant's mature thought, resulting in a wide-ranging understanding of his philosophical concerns. Offering coverage of the full range of Kant's ideas, the book explores his so-called Copernican Revolution, the basic framework of his metaphysical outlook, and sets out its implications for his theory of knowledge, moral philosophy and theory of beauty and design. Crucially the book situates Kant in relation to other philosophers of his period, and it shows how a number of his seminal ideas can be clearly understood through an appreciation of their opposing views. This is the ideal introduction for anyone coming to the work of this hugely important thinker for the first time. "Continuum's Starting with." series offers clear, concise and accessible introductions to the key thinkers in philosophy. The books explore and illuminate the roots of each philosopher's work and ideas, leading readers to a thorough understanding of the key influences and philosophical foundations from which his or her thought developed. Ideal for first-year students starting out in philosophy, the series will serve as the ideal companion to study of this fascinating subject.
