Neuware - Document from the year 2015 in the subject Medicine - Dentistry, , course: MDS, language: English, abstract: Culture plays an important role in human societies. It lays down norms of behavior and provides mechanisms which secure for an individual, his personal and social survival. Culture includes everything which one generation can tell, convey or hand down to the next. Culture has three parts. It is an experience that is learned, shared and transmitted. Acculturation refers to culture contact. There are various ways by which the acculturation can occur, like in the way of trade and commerce, industrialization, propagation of religion, education and conquest to name some. Every culture has its own customs which may have significant influence on health and oral health. The increased incidence of lung cancer because smoking, cirrhosis because of alcoholism in many developed countries, the surge in the incidence of oral cancer in India due to pan chewing habits are some classical examples to demonstrate the influence of culture on health and oral health. It is now fairly established that the cultural factors are deeply involved in the whole way of life,...
