Hay House Inc, United States, 2008. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book. In 1944, Max Planck, the father of quantum theory, shocked the world by saying that this matrix is where the birth of stars, the DNA of life, and everything between originates. Recent discoveries reveal dramatic evidence that Planck s matrix - The Divine Matrix - is real. It is this missing link in our understanding that provides the container for the universe, the bridge between our imagination and our reality, and the mirror in our world for what we create in our beliefs. To unleash the power of this matrix in our lives, we must understand how it works and speak the language that it recognizes. For more than 20 years, Gregg Braden, a former senior aerospace computer systems designer, has searched for the understanding to do just that. In this paradigm-shattering book, Gregg shares what he s found. Through 20 keys of conscious creation, we re shown how to translate the miracles of our imagination into what is real in our lives. With easy-to-understand science and real-life stories, Gregg shows us that we re limited only by our beliefs, and what we once believed is about to change!.
