Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Trains on the Elevated are not run at haphazard. Schedules are prepared with the greatest care and a close check of the traffic is made at certain points on the various lines as each train passes. This check is made throughout the entire twenty-four hours of the day and night. With this information in front of him, the man who makes up the schedules has a picture of every train on the entire system. It is his business to keep the number of seats as near to the number of passengers as it is humanly possible. That cannot be done in the rush hours, but it is done at other hours, provided trains are run on schedule time. A delay to a train of two minutes, or even one minute, throws the service out of balance, with the result that one train is over-crowded while the one following is half-filled. Running a system like the L isnt nearly as simple as it looks to many. for it is safe to say that one-half the daily patrons think they could run it better than the men who have made it their life work. Fluctuations in L Traffic from Day to Day HEN you board an L train that is crowded, dont you inwardly, if not audibly, cuss the company for not putting on more cars Of course you do. It is human nature, and it is much the same in Chicago, New York,...
